

Harmony

Through Floor Lift

The easy solution for independent living

The Harmony Through Floor Lift is a safe and easy-to-use solution for homes where stairs prevent independent access between floors. It comes with a market-leading range of car sizes, so there is a solution for every need. The lift car is optimised for space and features a low floor for easy wheelchair access and egress. Installation is flexible, as the lift can be fitted across windows or against non-load bearing walls, with only minimal headroom required above the first floor.

Standard features

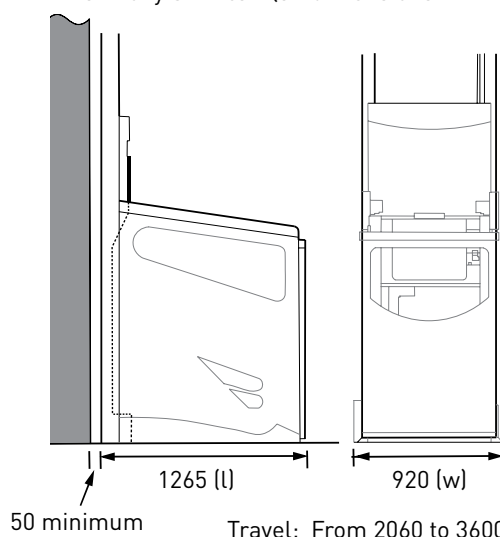

- **Smart car design** optimises use of space and minimises the lift's footprint
- **Low floor** ensures easy wheelchair access & egress
- **Powered door** on all models
- **Wireless** controls in car and at both floors
- **Safety glass windows**, resistant to scratching
- **Safe edges** and pressure sensitive safety surfaces
- **Fire and smoke protection** maintained between floors, whether the lift is parked upstairs or downstairs
- **Battery back up system** allows user to return to ground floor safely during a power cut

Optional extras

- A range of trim colours
- Folding seat (can be used as a perch seat)
- Telephone in the lift car
- Radio isolate
- Hand held remote control
- Grab handles
- Joystick control
- Left or right door handing
- Car padding on three sides and door
- Modern LED side lighting
- Mirror
